

Subject Index—Volume 35

No. 1, January, pp. 1-290

No. 2, February, pp. 291-566

No. 3, March, pp. 567-1026

No. 4, April, pp. 1027-1272

No. 5, May, pp. 1273-1486

No. 6, June, pp. 1487-1730

A

Abdomen

acute, management of, in children with leukemia, 826

masses, in children, roentgenographic approach to evaluation of, 884

neuroblastoma of, in children, management of, 905

tumors of, management of, 910

Actinomycin D, see Antibiotics, antitumor, dactinomycin

Adenocarcinoma, cervical, primary, radiotherapy and surgery in, 1514

Adenomas, chromophobe, megavoltage radiotherapy in, 1574

Adrenal cortex, carcinoma of, study of 32 patients, 549

Adriamycin, see Antibiotics, antitumor

Alkaloids

vincristine, in brain tumors, malignant, 1398

vincristine, in brain tumors, primary malignant, in childhood, 965

vincristine, in head and neck malignancies, advanced, 1116

vincristine, in hepatoblastoma, preliminary report, 1083

vincristine, in Hodgkin's disease, 55

vincristine, in Hodgkin's disease, childhood, 808

vincristine, in Hodgkin's disease, preliminary results of a prospectively randomized clinical trial, 1055

vincristine, in leukemia, lymphatic acute, 1136

vincristine, in leukemia, lymphoblastic, hypofibrinogenemia associated with, 145

vincristine, in leukemia, myeloblastic acute, induction and maintenance of remission in, 347

vincristine, in lymphoma, diffuse histiocytic, long-term remission with, 1050

vincristine, in mammary cancer, advanced, plus adriamycin, compared to and combined with cyclophosphamide, methotrexate, and 5-fluorouracil, 1108

vincristine, in melanoma, malignant, disseminated, 342

vincristine, in melanoma, malignant, disseminated, combined with BCNU, compared with DTIC, 368

vincristine, in non-Hodgkin's lymphoma, 354

vincristine, in pulmonary metastases in children with osteogenic sarcoma, in sequential chemotherapy combined with surgical resection, 618

vincristine, in rhabdomyosarcoma, embryonal, in children, 677

vincristine, in sarcoma, osteogenic, 936

vincristine, in sarcomas, soft tissue, 921

vincristine, in Wilms' tumor, 901

vincristine, modification of radiation injury to normal tissues by, 1678

Alkylating agents

cyclophosphamide, and *Corynebacterium parvum*, inhibitory effect of prolonged administration on the growth of established tumors, 134

cyclophosphamide, in hepatoblastoma, preliminary report, 1083

cyclophosphamide, in Hodgkin's disease, childhood, 808

cyclophosphamide, in leukemia, lymphatic acute, 1136

cyclophosphamide, in lymphoma, diffuse histiocytic, long-term remission with, 1050

cyclophosphamide, in lymphoma, non-Hodgkin's, 354

cyclophosphamide, in mammary cancer, advanced, with methotrexate and 5-fluorouracil, compared to and combined with adriamycin plus vincristine, 1108

cyclophosphamide, in mammary cancer, metastatic, 1101

cyclophosphamide, in pulmonary metastases in children with osteogenic sarcoma, in sequential chemotherapy combined with surgical resection, 618

cyclophosphamide, in rhabdomyosarcoma, embryonal, 677

cyclophosphamide, in sarcoma, osteogenic, 936

cyclophosphamide, in sarcoma, osteogenic, metastatic, 622

cyclophosphamide, in sarcomas, soft tissue, 921

cyclophosphamide, modification of radiation injury to normal tissues by, 1678

nitrogen mustard, in Hodgkin's disease, 55

nitrogen mustard, in Hodgkin's disease, preliminary results of a prospectively randomized clinical trial, 1055

phenylalanine mustard, in melanoma of the extremity, recurrent, 574

Alpha fetoprotein, see Immunology, antigens

Antibiotics

antitumor, adriamycin, in head and neck malignancies, advanced, 1116

antitumor, adriamycin, in Hodgkin's disease, childhood, 808

antitumor, adriamycin, in mammary cancer, ad-

- vanced, plus vincristine, compared to and combined with cyclophosphamide, methotrexate, and 5-fluorouracil, 1108
- antitumor, adriamycin, in pulmonary metastases in children with osteogenic sarcoma, in sequential chemotherapy combined with surgical resection, 618
- antitumor, adriamycin, in rhabdomyosarcoma, embryonal, in children, 677
- antitumor, adriamycin, in sarcoma, osteogenic, 936
- antitumor, adriamycin, in sarcoma, osteogenic, metastatic, 622
- antitumor, adriamycin, modification of radiation injury to normal tissues by, 1678
- antitumor, bleomycin, modification of radiation injury to normal tissues by, 1678
- antitumor, dactinomycin, in rhabdomyosarcoma, embryonal, in children, 677
- antitumor, dactinomycin, in sarcomas, soft tissue, 921
- antitumor, dactinomycin, in Wilms' tumor, 901
- antitumor, dactinomycin, modification of radiation injury to normal tissues by, 1678
- antitumor, daunorubicin, in leukemia, myeloblastic acute, induction and maintenance of remission in, 347
- streptozotocin, in cancer, 358
- Antigens, see Immunology
- Antimetabolites
- cytosine arabinoside, in head and neck malignancies, advanced, 1116
- cytosine arabinoside, in leukemia, myeloblastic acute, induction and maintenance of remission in, 347
- cytosine arabinoside, in lymphoma, diffuse histiocytic, long-term remission with, 1050
- 5-fluorouracil, in head and neck malignancies, advanced, 1116
- 5-fluorouracil, in hepatic metastases, after hepatic artery ligation, clinical and pathophysiological results, 1074
- 5-fluorouracil, in hepatoblastoma, preliminary report, 1083
- 5-fluorouracil, in lentigo maligna, 721
- 5-fluorouracil, in mammary cancer, 1101
- 5-fluorouracil, in mammary cancer, advanced, with methotrexate and cyclophosphamide, compared to and combined with adriamycin plus vincristine, 1108
- 5-fluorouracil, intensive course, by oral vs. intravenous routes, in colorectal carcinoma, double-blind comparison, 1031
- mercaptopurine, in leukemia, lymphatic acute, 1136
- 6-mercaptopurine, in leukemia, myeloblastic acute, induction and maintenance of remission in, 347
- methotrexate, in brain tumors, primary malignant, in childhood, 965
- methotrexate, in head and neck malignancies, advanced, 1116
- methotrexate, in leukemia, lymphatic acute, 1136
- methotrexate, in leukemia, lymphocytic acute, intracerebral calcifications appearing during the course of, 319
- methotrexate, in leukemia, meningeal, superiority of conventional therapy with maintenance over intensive intrathecal therapy, unmaintained, or radiotherapy (2000–2500 rads tumor dose), 1066
- methotrexate, in leukemia, myeloblastic acute, induction and maintenance of remission in, 347
- methotrexate, in lymphoma, diffuse histiocytic, long-term remission with, 1050
- methotrexate, in mammary cancer advanced, with cyclophosphamide and 5-fluorouracil, compared to and combined with adriamycin plus vincristine, 1108
- methotrexate, in mammary cancer, metastatic, 1101
- methotrexate, in sarcoma, osteogenic, 936
- methotrexate, in sarcoma, osteogenic, metastatic, 622
- methotrexate, with citrovorum factor rescue, in pulmonary metastases in children with osteogenic sarcoma, in sequential chemotherapy combined with surgical resection, 618
- Artery
- carotid, bifurcation of, cervical synovial sarcoma of, 483
- hepatic, ligation of, and postoperative chemotherapy for hepatic metastases, clinical and pathophysiological results, 1074
- Asbestos, and bronchogenic carcinoma, association of, in a population with low asbestos exposure, 1236
- Ascitic fluid, coagulative and fibrinolytic properties of, associated with ovarian tumors, 1382
- Astrocytomas, intracranial, radiotherapy in, role of, 1551
- B**
- Bacille Calmette-Guérin (BCG)
- aerosol, in carcinoma metastatic to the lung, a Phase I study, 1088
- in melanoma, malignant, immunologic and histopathologic changes of, 756
- in melanoma, of the extremity, recurrent, 574
- in melanoma, two fatalities following intralesional injection, 514
- protection against malignant melanoma, possible immunospecific effect in a murine system, 372
- BCG, see Bacille Calmette-Guérin
- BCNU 1-3-bis-(2-chloroethyl)-1-nitrosourea see Nitrosoureas
- Blacks, skin cancer in, 600
- Bladder, cancer of, immunologic evaluation of, in vitro studies, 419
- Blastic transformation of chronic myeloid leukemia, meningeal leukemia after, 529

Bleomycin

- indium-111-, as a tumor-imaging agent, clinical evaluation of, 1036
- see also Antibiotics, antitumor

Blood flow, tumor, morphological and quantitative study of, during growth and immune rejection, 385**Bone**

- Cancer of, radiotherapy in, 930
- fibrosarcoma of, primary, clinicopathologic study of 130 patients, 837
- lesion of, painful lytic, in an adult with chronic myelogenous leukemia, 1354
- sarcoma, Ewing's, combined modality therapy of, 36
- sarcoma of, in children, pulmonary metastases in, management of, with surgical resection combined with chemotherapy, 618
- sarcoma of, metastatic, combination chemotherapy and radiation therapy in, 622
- sarcoma of, osteogenic, multiple drug chemotherapy in, rationale for, 936
- tumor of, suspected, role of radiologist in management of child with, 925

Bone marrow

- biopsy of, in Hodgkin's disease, detection of skeletal involvement in, compared with radiography and bone scanning in 38 patients, 1346
- chromosomes from, autoradiographic and fluorescent staining studies of, from a patient with acute granulocytic leukemia, 378
- failure of, lymphoma, non-Hodgkin's, presenting as, 1426
- irradiation of, local fractionated, effect of age on long-term response of, 1685

Bowel, see Intestine**Brain**

- astrocytomas of, intracranial, radiotherapy in, role of, 1551
- cerebellar capillary hemangioblastoma, its histogenesis studied by organ culture and electron microscopy, 326
- ependymomas of, intracranial, radiotherapy in, improved survival with, dose selection and field extension, 1563
- intracerebral calcifications appearing during the course of acute lymphocytic leukemia treated with methotrexate and x rays, 319
- sarcoma of, reticulum cell, review of the literature and study of 19 cases, 1412
- tumor of, murine, cellular radiosensitivity of, 1545
- tumors of, combined modality therapy for, 111
- tumors of, in childhood, diagnosis and surgical treatment of, 950
- tumors of malignant, combination chemotherapy in, phase II study of, 1398
- tumors of, primary malignant, in children, chemotherapy in, 965

Breast

- cancer of, adrenalectomy with radical mastectomy in, 478

- cancer of, advanced, adriamycin plus vincristine, compared to and combined with cyclophosphamide, methotrexate, and 5-fluorouracil in, 1108
- cancer of, advanced, hypersplenism in, report of a patient treated with splenectomy, 1449
- cancer of, aspiration cytology in diagnosis of, experience at the Fondation Curie, 499
- cancer of, biopsy priority in, 612
- cancer of, homolateral, incidence of, after partial mastectomy, 475
- cancer of, human tissue, prognostically favorable immunogens of, antigenic similarity to murine mammary tumor virus, 121
- cancer of, human tissue, surface immunoglobulin positive lymphocytes in, and homolateral axillary lymph nodes, 129
- cancer of, importance of lymphatic drainage of the breast on and through the pectoral muscles in, 260
- cancer of, lymph nodes, regional, immunologic competence of, 655
- cancer of, metastatic, effective low-dose intermittent cyclophosphamide, methotrexate, and 5-fluorouracil treatment regimen for, 1101
- cancer of, multicentric, incidence of new cancers in the homolateral breast after partial mastectomy, 475
- cancer of, multicentricity of, pathologic findings from the National Surgical Adjuvant Breast Project (Protocol No. 4), 247
- cancer of, occult, xeroradiography in, 542
- cancer of, second, prognosis of, role of previous exposure to the first primary, 596
- cancer of, survival and recurrence vs. patient and doctor delay in treatment of, 714
- carcinoma of, biological markers in, incidence of abnormalities of CEA, HCG, three polyamines, and three minor nucleosides, 1095
- carcinoma of, early stage, radiotherapy as primary therapy for, 1587
- carcinoma of, experimental, promotion of, in rats treated with extract of liver from rats with portacaval shunt, 631
- carcinoma of, lobular, arising in fibroadenoma of the breast, 450
- carcinoma of, mastectomy, modified radical, in, 710
- carcinoma of, primary, consecutive, 1472
- carcinoma of, radiotherapy in, postoperative, reactions in, acute and late, influence of dose fractionation on, 1583
- carcinoma of, recurrent, involving the bony chest wall, full-thickness chest wall resection for, 567
- carcinoma of, "residual," following simulated partial mastectomy, 739
- fibroadenoma of, lobular carcinoma arising in, 450
- lymphatic drainage of, on and through the pectoral muscles, importance in breast cancer, 260
- tumor of, 7,12 dimethylbenz(a)anthracene-induced, mechanism of hormone action in, prolactin and progesterone effects on estrogen receptor in vitro, 645

Bronchus

- bronchogenic carcinoma, and asbestos, association of, in a population with low asbestos exposure, 1236
- bronchogenic carcinoma, thymus-dependent lymphocyte levels in, correlations with histology, clinical stage, and clinical course after surgical treatment, 687

C

Cancer

- adjuvant therapy of via the cellular immune mechanism or fibrin by induced fibrinolysis and oral anticoagulants, 91
 - advanced, delayed cutaneous hypersensitivity and peripheral lymphocyte counts in, 748
 - bone, radiotherapy in, 930
 - cervical, para-aortic irradiation in prospects for 1505
 - cervical, para-aortic radiotherapy in, 1510
 - cervical, relationship to primary vaginal carcinoma, pathologic behavior of, 787
 - childhood, genetics of, 1022
 - childhood, in perspective, cure is not enough, 866
 - childhood, multimodal therapy of, success and failure of, 48
 - childhood, practical care for the family, 871
 - childhood, survivors of, risk of second tumors, in, 1230
 - childhood, therapy in, multidisciplinary, 876
 - control of, surgical oncology in, 592
 - etiology, epidemiologic approach to, 652
 - experimental, immunologic responsiveness of regional lymphocytes in, 778
 - gastric, familial, and atypical colonic polyposis, a three-decade followup, 255
 - gynecologic, combined modality therapy of, 76
 - head and neck, intravenous hyperalimentation in patients with, 606
 - hypopharyngeal, squamous, metastatic to cervix, efficacy of combining radiation and surgery in, 1163
 - incidence of, in patients with leprosy, 1259
 - laryngopharyngeal, cured, prolonged depression of cellular immunity in patients treated with radiation therapy, 638
 - mammary, advanced, adriamycin plus vincristine, compared to and combined with cyclophosphamide, methotrexate, and 5-fluorouracil in, 1108
 - mammary, advanced, hypersplenism in, report of a patient treated with splenectomy, 1449
 - mammary, aspiration cytology in diagnosis of, experience at the Fondation Curie, 499
 - mammary, biopsy priority in, 612
 - mammary, high-risk, adrenalectomy with radical mastectomy in, 478
 - mammary, homolateral, incidence of, after partial mastectomy, 475
 - mammary, human tissue, prognostically favorable immunogens of, antigenic similarity to murine mammary tumor virus, 121
 - mammary, human tissue, surface immunoglobulin positive lymphocytes in, and homolateral axillary lymph nodes, 129
 - mammary, importance of lymphatic drainage of the breast on and through the pectoral muscles in, 260
 - mammary, lymph nodes, regional, immunologic competence of, 655
 - mammary, metastatic, effective low-dose intermittent cyclophosphamide, methotrexate, and 5-fluorouracil treatment regimen for, 1101
 - mammary, multicentric, incidence of new cancers in the homolateral breast after partial mastectomy, 475
 - mammary, multicentricity of, pathologic findings from the National Surgical Adjuvant Breast Project (Protocol No. 4), 247
 - mammary, occult, xeroradiography in, 542
 - mammary, second, prognosis of, role of previous exposure to the first primary, 596
 - mammary, survival and recurrence vs. patient and doctor delay in treatment of, 714
 - oral, progression, association of IgA levels of serum and whole saliva with, 1154
 - oropharyngeal, squamous, metastatic to cervix, efficacy of combining radiation and surgery in, 1163
 - skin, in black patients, 600
 - streptozotocin in, 358
 - surgery and preoperative irradiation for, 84
 - urinary polyamine levels in, 464
 - vesical, immunologic evaluation of, in vitro studies, 419
- Cancer Control Program, 72
- Cancer hospitals, role of, 70
- Cancer patients, immune competence in, sequential evaluation of, correlation with clinical course, 660
- Cancer problem, the, clinician's view of, 705
- Cancer therapy
- integrated, conceptual approach to, 1
 - trials of, randomized concurrent controlled, 64
- Carcinoid tumors, gastrointestinal, 588
- Carcinoma
- adrenal cortical, study of 32 patients, 549
 - bronchogenic, and asbestos, association of, in a population with low asbestos exposure, 1236
 - bronchogenic, thymus-dependent lymphocyte levels in, correlations with histology, clinical stage, and clinical course after surgical treatment, 687
 - cervical, lymphadenectomy, pelvic and para-aortic, in, 784
 - cervical, primary, extension to endometrium, prognostic significance of, 1493
 - colonic, rectosigmoid, radiotherapy in, preoperative, report of a national Veterans Administration randomized study, 1597
 - colonic, sigmoid, mesocolic lymph node histology is

- an important prognostic indicator for, immunomorphologic study, 1388
- colorectal, 5-fluorouracil in, by oral vs. intravenous routes, double-blind comparison, 1031
- endolaryngeal, results of irradiation, 1525
- epidermoid, central, and mucoepidermoid (aggressive growth and neoplastic potential of odontogenic cysts), 270
- head and neck, radiotherapy in, unilateral hypoglossal nerve atrophy as a late complication of, report of four cases and review of the literature, 1537
- head and neck, squamous cell, split-course radiotherapy in, evaluation of University of Florida technique, 1533
- hepatocellular, staging system for, prognostic factors in Ugandan patients, 1357
- mammary, biological markers in, incidence of abnormalities of CEA, HCG, three polyamines, and three minor nucleosides, 1095
- mammary, early stage, radiotherapy as primary therapy for, 1587
- mammary, experimental, promotion of, in rats treated with extract of liver from rats with portacaval shunt, 631
- mammary, lobular, arising in fibroadenoma of the breast, 450
- mammary, mastectomy, modified radical, in, 710
- mammary, primary, consecutive, 1472
- mammary, radiotherapy in, postoperative, reactions in, acute and late, influence of dose fractionation on, 1583
- mammary, recurrent, involving the bony chest wall, full thickness chest wall resection for, 567
- mammary, "residual," following simulated partial mastectomy, 739
- metastatic, to lung, aerosol BCG in, a Phase I study, 1088
- nasopharyngeal, elevated IgA in, 1313
- oral lingual and floor-of-mouth, 15 years' experience with linear accelerator therapy, 1517
- rectal, radiotherapy in, preoperative, report of a national Veterans Administration randomized study, 1597
- renal cell, and erythrocytosis with pulmonary metastases, case report with 18-year followup and review of the literature, 1701
- renal cell, and Wilms' tumor in retroperitoneal teratoma, 1179
- thyroid, anaplastic giant-cell, a study of treatment and prognosis, 1293
- thyroid, anaplastic (spindle and giant cell), ultrastructure of, 1280
- thyroid, medullary, 695
- ureteral, primary, prognostic study of, 1626
- vaginal, primary, pathologic behavior of, relationship to cervical cancer, 787
- Carinomatosis, hepatic, metastatic, mimicking cirrhosis, case report and review of the literature, 445
- Catecholamines, and dopamine-B-hydroxylase, in an olfactory esthesioneuroma, 1309
- CCNU (1-(2-chloroethyl)-3-cyclohexyl-1-nitrosourea), see Nitrosoureas
- Cells, see Cytology
- Central nervous system
- in leukemia, childhood, subacute leukoencephalopathy, 306
 - leukemia and lymphoma of, treated, disseminated necrotizing leukoencephalopathy as a complication of, 291
 - tumors of, in childhood, radiotherapy in, 957
- Cerebrum, rhabdomyosarcoma of, primary, 1405
- Cervix uteri
- adenocarcinoma of, primary, radiotherapy and surgery in, 1514
 - cancer of, para-aortic irradiation in, prospects for, 1505
 - cancer of, para-aortic radiotherapy in, 1510
 - cancer of, relationship to primary vaginal carcinoma, pathologic behavior of, 787
 - carcinoma of, lymphadenectomy, pelvic and para-aortic, in, 784
 - carcinoma of, primary, extension to endometrium, prognostic significance of, 1493
 - glycolytic enzyme activity of, 469
 - metastasis to, from squamous cancer of the oropharynx and hypopharynx, efficacy of combining radiation and surgery in, 1163
- Chemodectoma of the vagus nerve, report of a case with ultrastructural study, 263
- Chemotherapy
- alchemy in, from wild fowl to stalking horses, fifth annual David A. Karnofsky Memorial Lecture, 1121
 - and radiotherapy, in Hodgkin's disease, 55
 - anticoagulants, oral, and fibrinolytic agents, adjuvant therapy of cancer with, 91
 - combination, in brain tumors, malignant, Phase II study of, 1398
 - combination, in hepatoblastoma, preliminary report, 1083
 - combination, in leukemia, lymphatic acute, long-term second remissions, 1136
 - combination, in leukemia, myeloblastic acute, induction and maintenance of remission in, 347
 - combination, in lymphoma, non-Hodgkin's, patterns of relapse from complete remission after, 354
 - combination, in melanoma, malignant, disseminated, 342, 368
 - combination, in sarcoma, osteogenic metastatic, 622
 - combination, MOPP, and radiotherapy, in Hodgkin's disease, 55
 - combination, MOPP, in Hodgkin's disease, preliminary results of a prospectively randomized clinical trial, 1055
 - combination sequential, in lymphoma, diffuse histiocytic, long-term remission in, 1050
 - combination vs. single agent, review of the basis for selection of drug treatment of cancer, 98
 - fibrinolytic agents, and oral anticoagulants, adjuvant therapy of cancer with, 91

- in brain tumors, primary malignant, in children, 965
 - in hepatic metastases, after hepatic artery ligation, clinical and pathophysiological results, 1074
 - in lentigo maligna, 721
 - in leukemia, acute, prediction of response to, 507
 - in leukemia, central nervous system, disseminated necrotizing leukoencephalopathy as a complication of, 291
 - in leukemia, lymphoblastic, hypofibrinogenemia associated with, 145
 - in leukemia, lymphocytic acute, intracerebral calcifications appearing during the course of, 319
 - in lymphoma, 1188
 - in lymphoma, central nervous system, disseminated necrotizing leukoencephalopathy as a complication of, 291
 - in mammary cancer, metastatic, 1101
 - in melanoma of the extremity, recurrent, 574
 - in neuroblastoma, abdominal, 905
 - in sarcomas, soft tissue, 921
 - in tumors, growth of, inhibitory effect of prolonged, 134
 - in tumors, solid, 1148
 - multiple drug, in sarcoma, osteogenic, rationale for, 936
 - sequential, in rhabdomyosarcoma, embryonal, in children, 677
 - sequential, in pulmonary metastases in children with osteogenic sarcoma, combined with surgical resection, 618
 - systemic, in head and neck malignancies, advanced, 1116
- Childhood
- abdominal masses in, roentgenographic approach to evaluation of, 884
 - abdominal tumors in, 910
 - bone cancer in, radiotherapy in, 930
 - bone tumor in, suspected, role of the radiologist in management of, 925
 - brain tumors in, diagnosis and surgical treatment of, 950
 - brain tumors, primary malignant, in, chemotherapy in, 965
 - cancer in, genetics of, 1022
 - cancer in, in perspective, cure is not enough, 866
 - cancer in, multidisciplinary therapy in, 876
 - cancer in, multimodel therapy of, success and failure of, 48
 - cancer in, practical care for the family, 871
 - cancer in, survivors of, risk of second tumors in, 1230
 - central nervous system tumors in, radiotherapy in, 957
 - enteritis in, radiation-induced, retrospective review, clinicopathologic correlation, and dietary management in, 1167
 - Hodgkin's disease in, changing management of, 808
 - Hodgkin's disease in, retrospective analysis, 1958-73, 979
 - Hodgkin's disease in, staging of, 973
 - leukemia in, acute, acute abdomen in, management of, 826
 - leukemia in, acute, complications and total care in, 1007
 - leukemia in, acute, extramedullary involvement of the testes in, 1203
 - leukemia in, acute, predictions for the future based on extrapolations from the past, 1000
 - leukemia in, central nervous system in, subacute leukoencephalopathy, 306
 - leukemia in, introduction and etiology, 996
 - leukemia in, lymphoblastic acute, serum from, lymphocyte transformation in, 1341
 - leukemia in, management of the acute abdomen in, 826
 - leukemia in, treatment of, new looks in, 1015
 - lymphoma in, treatment of, 991
 - malignancies in, leukocyte function in, 1365
 - neuroblastoma in, abdominal, management of, 905
 - rhabdomyosarcoma in, embryonal, multidisciplinary treatment of, 677
 - rhabdomyosarcoma in, surgery in, 916
 - sarcoma in, osteogenic, rationale for multiple drug chemotherapy in, 936
 - sarcoma in, osteogenic, sequential chemotherapy combined with surgery in pulmonary metastases from, 618
 - sarcoma in, soft tissue, diagnostic radiology and radiation therapy in, 946
 - sarcomas in, soft tissue, chemotherapy in, 921
 - varicella and neoplastic disease in, prophylaxis of, comparative results with zoster immune plasma and gamma globulin, 1027
- 1-(2-chloroethyl)-3-cyclohexyl-1-nitrosourea (C-CNU), see Nitrosoureas
- 1-(2-chloroethyl)-3-4-methylcyclohexyl-nitrosourea (methyl CCNU), see Nitrosoureas
- Cholesterol, serum, in malignancy, prognostic usefulness of assessing, 1223
- Chromosomes, bone marrow, autoradiographic and fluorescent staining studies of, from a patient with acute granulocytic leukemia, 378
- Chyluria, in a case of lymphangiomyomatosis with ureteral involvement, 490
- Cirrhosis, mimicked by carcinomatosis, hepatic, metastatic, case report and review of the literature, 445
- Citrovorum factor rescue
- in pulmonary metastases in children with osteogenic sarcoma, and methotrexate, in sequential chemotherapy combined with surgical resection, 618
 - in sarcoma, osteogenic, 936
 - in sarcoma, osteogenic, metastatic, with methotrexate, 622
- C-MOPP, in lymphoma, non-Hodgkin's, 354
- Colon
- carcinoma of, 5-fluorouracil in, by oral vs. intravenous routes, double-blind comparison, 1031
 - mucosa of, proliferative patterns in, in familial polyposis, 413

- neoplasms of, complicating ureterosigmoidostomy, 1218
polyposis of, familial, atypical, and gastric cancer, a three-decade followup, 255
rectosigmoid, carcinoma of, radiotherapy in, preoperative, report of a national Veterans Administration study, 1597
sigmoid, carcinoma of, mesocolic lymph node histology is an important prognostic indicator for, immunomorphologic study, 1388
Corynebacterium parvum, and cyclophosphamide, inhibitory effect of prolonged administration on the growth of established tumors, 134
Cyclophosphamide, see Alkylating agents
Cysts, odontogenic, aggressive growth and neoplastic potential of, with special reference to central epidermoid and mucoepidermoid carcinomas, 270
Cytology
aspiration, in mammary cancer, value of, experience at the Fondation Curie, 499
cells, argyrophil and B, comprising endocrine tumor of the pancreas, 436
cells, leukocytes, function of, in children with malignancies, 1365
cells, lymphocytes, peripheral, counts of, and delayed cutaneous hypersensitivity in advanced cancer, 748
cells, lymphocytes, regional, immunologic responsiveness of, in experimental cancer, 778
cells, lymphocytes, surface immunoglobulin positive, and homolateral axillary lymph nodes, in human mammary cancer tissue, 129
cells, lymphocytes, thymus-dependent, levels of, in bronchogenic carcinoma, correlations with histology, clinical stage, and clinical course after surgical treatment, 687
cells, lymphocytes, transformation of, in leukemic serum, 1341
cells, lymphoid, abnormal, in Sézary syndrome, thymic origin of, 1325
cells, mammalian, cultured, in radiobiological study of a high-energy modulated proton beam, 1664
cells, tumor, hypoxic, survival curve of, fractionated dose of 35-MeV fast neutrons and, 1658
cellular radiosensitivity of a murine brain tumor, 1545
Cytosine arabinoside, see Antimetabolites
- D, E, F**
- Dactinomycin, see Antibiotics, antitumor
Daunorubicin, see Antibiotics, antitumor
4'-demethyl-epipodophyllotoxin- β -D-ethylidene glucoside (NSC 141540) VP 16-213, oral, clinical trial of, 1141
Dimethyl triazeno imidazole carboxamide
in head and neck malignancies, advanced, 1116
in melanoma, malignant, compared with combined BCNU and vincristine, 368
in melanoma, malignant, disseminated, 342
7, 12 dimethylbenz(a)anthracene, mammary tumor induced by, mechanism of hormone action in, prolactin and progesterone effects on estrogen receptor in vitro, 645
Disease, Peyronie's, penile epithelioid sarcoma masquerading as, 1706
Duct, thoracic, cannulation of, manipulation of tumor-specific blocking factors in a patient with malignant melanoma, 1465
Effusion
pericardial, radiation-related, associated with the mantle technique for Hodgkin's disease, dose and treatment factors in, 795
pleural, malignant, indications for pleurectomy in, 734
Endolarynx, carcinoma of, results of irradiation, 1525
Endometrium
extension to, from primary carcinoma of the uterine cervix, prognostic significance of, 1493
stroma of, sarcoma of, ultrastructure of, 406
Enteritis, radiation-induced, in children, retrospective review, clinicopathologic correlation, and dietary management, 1167
Enzymes, dopamine-B-hydroxylase, and catecholamines, in an olfactory esthesioneuroma, 1309
Enzyme activity, glycolytic, cervical, 469
Eosinophilia, patient with, and leukocytosis and lymph node granuloma, malignant histiocytosis in, 1444
Ependymomas, intracranial, radiotherapy in, improved survival with, dose selection and field extension, 1563
Epidemiology
and cancer etiology, 652
bronchogenic carcinoma, association with asbestos, in a population with low asbestos exposure, 1236
cancer, of the skin, in black patients, 600
leprosy, patients with, incidence of cancer in, 1259
of treatment, 64
Epipodophyllotoxin (PTG, VM-26), in brain tumors, primary malignant, in childhood, 965
Erythrocytosis, and renal cell carcinoma with pulmonary metastases, case report with 18-year followup and review of the literature, 1701
Esophagus, tumor of, melanocytic, 1438
Esthesioneuroma, olfactory, dopamine-B-hydroxylase and catecholamines in, 1309
Ewing's sarcoma, see Sarcoma, Ewing's
Farber, Sidney, Dr. (eulogy), 863
Female genital tract, tumors of, malignant, carcinoembryonic antigen and alpha fetoprotein in, 1377
Fibrinogen survival and fibrinolysis in acute leukemia, 432
Fibrinolysis, induced, fibrin by, and oral anticoagulants, or via the cellular immune mechanism, adjuvant therapy of cancer by, 91
Fibroadenoma, mammary, lobular carcinoma arising in, 450
Fibrosarcoma, bone, primary, clinicopathologic study of 130 patients, 837

- Fibroxanthoma, skin, metastatic atypical, 457
Fluid, ascitic, coagulative and fibrinolytic properties of, associated with ovarian tumors, 1382
Fluorescent staining studies of bone marrow chromosomes from a patient with acute granulocytic leukemia, 378
5-Fluorouracil, see Antimetabolites

G, H, I

- Gastrointestinal tract
 carcinoid tumors of, 588
 malignancy of, CEA as a monitor of, 830
Genetics of childhood cancer, 1022
Germinal centers, relationship to nodular lymphoma, ultrastructural study of and correlation of light and electron microscopic findings, 148
Glomus jugulare tumors, radiotherapy in, 1316
Gonadotrophin, human chorionic, abnormalities of, in mammary carcinoma, 1095
Granuloma, lymph node, patient with, and eosinophilia and leukocytosis, malignant histiocytosis in, 1444
Gynecologic cancer, combined modality therapy of, 76
Gynecologic malignancy, carcinoembryonic antigen in patients with, 1372
Head and neck
 cancer of, intravenous hyperalimentation in patients with, 606
 carcinoma of, radiotherapy in, unilateral hypoglossal nerve atrophy as a late complication of, report of four cases and review of the literature, 1537
 carcinoma of, squamous cell, split-course radiotherapy in evaluation of University of Florida technique 1533
 malignancies of, advanced, chemotherapy in, systemic, 1116
Hemangioblastoma, capillary cerebellar, its histogenesis studied by organ culture and electron microscopy, 326
Hemangiosarcoma, splenic, with spontaneous rupture, 534
Hematologic depression, in lymphocytic lymphoma and leukemia, splenectomy for, 521
Hepatoblastoma, chemotherapy in, 1083
Hernia sacs, nodular mesothelial hyperplasia in, benign reactive condition simulating a neoplastic process, 165
Histiocytomas, fibrous, malignant (malignant soft tissue tumors of probable histiocytic origin), general considerations and electron microscopic and tissue culture studies, 176
Histiocytosis
 malignant (histiocytic medullary reticulosis), clinicopathologic study of 29 cases, 215
 malignant, in a patient presenting with leukocytosis, eosinophilia, and lymph node granuloma, 1444
Hodgkin's disease, see Lymphosarcoma
Hormones
 action, mechanism of, in 7, 12 dimethylbenz(a)anthracene-induced mammary tumor, prolactin and progesterone effects on estrogen receptor in vitro, 645
 adrenocorticotrophic (ACTH)-producing tumors, ectopic, studies on, clinical and biochemical features of 30 cases, 1430
 estrogen receptor, in vitro effects of prolactin and progesterone on, mechanism of hormone action in 7, 12 dimethylbenz(a)anthracene-induced mammary tumor, 645
 progesterone and prolactin effects on estrogen receptor in vitro, mechanism of hormone action in 7, 12 dimethylbenz(a)anthracene-induced mammary tumor, 645
Hydroxyurea
 in melanoma, malignant, disseminated, 342
 modification of radiation injury to normal tissues by, 1678
Hyperalimentation, intravenous, in patients with head and neck cancer, 606
Hyperparathyroidism, of 36 years' duration, 803
Hyperplasia, nodular mesothelial, in hernia sacs, benign reactive condition simulating a neoplastic process, 165
Hypersplenism, in advanced breast cancer, report of a patient treated with splenectomy, 1449
Hypofibrinogenemia associated with vincristine and prednisone therapy in lymphoblastic leukemia, 144
Hypopharynx, cancer of, squamous, metastatic to cervix, efficacy of combining radiation and surgery in, 1163
Immunology
 antigenic similarity of prognostically favorable immunogens of human breast cancer tissue to murine mammary tumor virus, 121
 antigens, alpha fetoprotein, and carcinoembryonic antigen, in malignant tumors of the female genital tract, 1377
 antigens, carcinoembryonic, abnormalities of, in mammary carcinoma, 1095
 antigens, carcinoembryonic, and alpha-fetoprotein, in malignant tumors of the female genital tract, 1377
 antigens, carcinoembryonic, in gastrointestinal malignancy, as a monitor of, 830
 antigens, carcinoembryonic, in gynecologic malignancy, 1372
 blocking factors, tumor-specific, manipulation of, in a patient with malignant melanoma, human thoracic duct cannulation, 1465
 cellular immune mechanism, adjuvant therapy of cancer via, or fibrin by induced fibrinolysis and oral anticoagulants, 91
 delayed cutaneous hypersensitivity, and peripheral lymphocyte counts in patients with advanced cancer, 748
 delayed hypersensitivity and inflammatory response, effect of radical radiotherapy on, 1616
 Fc receptors, in human malignant tissue and normal lymphoid tissue, 580
 gamma globulin prophylaxis of varicella in children

- with neoplastic disease, compared to zoster immune plasma, 1027
- immune competence, in cancer patients, sequential evaluation of, correlation with clinical course, 660
- immune rejection, tumor blood flow during, morphological and quantitative study of, 385
- immunity, cellular depression of, prolonged, in cured laryngopharyngeal cancer patients treated with radiation therapy, 638
- immunogens, of human breast cancer tissue, prognostically favorable, antigenic similarity to murine mammary tumor virus, 121
- immunoglobulin, radionuclide, lymphangiography with, in Hodgkin's disease, case report, 1487
- immunoglobulins, IgA, elevated, in nasopharyngeal carcinoma, 1313
- immunoglobulins, IgA, levels of, serum and whole saliva, association with progression of oral cancer, 1154
- immunologic and histopathologic changes of BCG-mediated tumor regression in patients with malignant melanoma, 756
- immunologic competence, of regional lymph nodes in patients with mammary cancer, 655
- immunologic evaluation of human bladder cancer, in vitro studies, 419
- immunologic responsiveness of regional lymphocytes in experimental cancer, 778
- immunomorphologic study of mesocolic lymph node histology, important prognostic indicator for patients with carcinoma of the sigmoid colon, 1388
- immunospecific effect of BCG in malignant melanoma in a murine system, 372
- immunotherapy, bacille Calmette-Guérin (BCG), aerosol, in carcinoma metastatic to the lung, a Phase I study, 1088
- immunotherapy, BCG, in melanoma, malignant, immunologic and histopathologic changes of, 756
- immunotherapy, BCG, in melanoma, two fatalities following intralesional injection, 514
- immunotherapy, BCG-protection against malignant melanoma, possible immunospecific effect in a murine system, 372
- immunotherapy, in melanoma, of the extremity, recurrent, 574
- lymphocytes, peripheral, counts of, and delayed cutaneous hypersensitivity in patients with advanced cancer, 748
- lymphocytes, regional, immunologic responsiveness of, in experimental cancer, 778
- lymphocytes, surface immunoglobulin positive, in human breast cancer tissue and homolateral axillary lymph nodes, 129
- lymphocytes, thymus-dependent, levels of, in bronchogenic carcinoma, correlations with histology, clinical stage, and clinical course after surgical treatment, 687
- zoster immune plasma prophylaxis of varicella in children with neoplastic disease, compared to gamma globulin, 1027
- Indium-111-bleomycin, as a tumor imaging agent, clinical evaluation, 1036
- Infection, in patients with advanced neoplastic diseases, nitroblue tetrazolium test in, 1421
- Intestine
- lymphoma of, primary, with paraproteinemia, 848
 - small, enteritis of, radiation-induced, in children, retrospective review, clinicopathologic correlation, and dietary management, 1167
 - small, injury to, in pelvic irradiation, measures to minimize, 1633
 - small, sarcoma of, primary granulocytic, 1333
- Irradiation, see Roentgenology

- radiotherapy, in sarcoma, osteogenic, metastatic, 622
- radiotherapy, in sarcomas, soft tissue, in children, 946
- radiotherapy, linear accelerator, in oral lingual and floor of mouth carcinoma, 15 years' experience, 1517
- radiotherapy, low-dose, pneumonitis from, 1322
- radiotherapy, lymphoma of thyroid, malignant, following, 1296
- radiotherapy, mantle technique, in Hodgkin's disease, dose and treatment factors in radiation-related pericardial effusion associated with, 795
- radiotherapy, megavoltage, in adenomas, chromophobe, 1574
- radiotherapy, megavoltage, in Hodgkin's disease, preliminary results of a prospectively randomized clinical trial, 1055
- radiotherapy, para-aortic, in cervical cancer, prospects for, 1505
- radiotherapy, para-aortic, in cervical carcinoma, 1510
- radiotherapy, pelvic, small intestine injury in, measures to minimize, 1637
- radiotherapy, preoperative, in rectal and rectosigmoid colonic carcinoma, report of a national Veterans Administration study, 1597
- radiotherapy, proton, exploratory study of, using large field techniques and fractionated dose schedules, 1646
- radiotherapy, radical dose, in sarcoma, soft tissue, clinical and histopathologic parameters and response to treatment, 1478
- radiotherapy, radical, effect on delayed hypersensitivity and the inflammatory response, 1616
- radiotherapy, 2000-2500 rads tumor dose, in leukemia, meningeal, superiority of conventional intrathecal methotrexate therapy with maintenance over, or intensive intrathecal methotrexate, unmaintained, 1066
- radiotherapy, splenic, in leukemia, chronic lymphocytic, 1621
- radiotherapy, split-course, in head and neck squamous cell carcinoma, evaluation of University of Florida technique, 1533

roentgenographic approach to evaluation of abdominal masses in children, 884
scanning, whole-body, indium-111-bleomycin in, clinical evaluation, 1036
xeroradiography, in mammary cancer, occult, 542

S

Salivary gland, neoplasms of, following atomic radiation, additional cases and reanalysis of combined data in a fixed population, 1957-1970, 555

Sarcoma

brain, reticulum cell, review of the literature and a study of 19 cases, 1412
cervical synovial, at the bifurcation of the carotid artery, 483
cervical synovial, followup study of 24 cases, 1243
endometrial stromal, ultrastructure of, 406
Ewing's, combined modality therapy of, 36
intestinal, small, primary granulocytic, 1333
osteogenic, in children, pulmonary metastases in, management of, with surgical resection combined with chemotherapy, 618
osteogenic, metastatic, combination chemotherapy and radiation therapy in, 622
osteogenic, multiple drug chemotherapy in, rationale for, 936
penile, epithelioid, masquerading as Peyronie's disease, 1706
soft tissue, chemotherapy in, 921
soft tissue, childhood, diagnostic radiology and radiation therapy in, 946
soft tissue, clinical and histopathologic parameters and response to treatment, 1478

Sézary syndrome, see Syndrome, Sézary

Shunt, portacaval, extract of liver from rats with, promotion of experimental breast carcinoma in rats treated with, 631

Sinuses, paranasal, peripheral nerve tumors involving, case report and review of the literature, 1254

Skeleton, involvement of, in Hodgkin's disease, detection of, comparison of radiography, bone scanning, and bone marrow biopsy in 38 patients, 1346

Skin

cancer of, in black patients, 600
fibroxanthoma of, metastatic atypical, 457

Soft tissue

sarcoma of, chemotherapy in, 921
sarcoma of, childhood, diagnostic radiology and radiation therapy in, 946
sarcoma of, clinical and histopathologic parameters and response to treatment, 1478

Spinal cord

murine, irradiation of, with cyclotron-accelerated helium ions, tolerance of, 1692
radiation tolerance of, 1558

Spleen

hemangiosarcoma of, with spontaneous rupture, 534
irradiation of, in chronic lymphocytic leukemia, 1621

Staging

celiotomy, influence of, in localized presentations of Hodgkin's disease, 817
of Hodgkin's disease, in children, 973

Steroids

prednisolone, in leukemia, lymphatic acute, 1136
prednisolone, modification of radiation injury to normal tissues by, 1678
prednisone, in head and neck malignancies, advanced, 1116
prednisone, in Hodgkin's disease, 55
prednisone, in Hodgkin's disease, childhood, 808
prednisone, in Hodgkin's disease, preliminary results of a prospectively randomized clinical trial, 1055
prednisone, in leukemia, lymphatic acute, 1136
prednisone, in leukemia, lymphoblastic, hypofibrinogenemia associated with, 145
prednisone, in leukemia, myeloblastic acute, induction and maintenance of remission in, 347
prednisone, in lymphoma, non-Hodgkin's, 354

Stomach, cancer of, familial, and atypical colonic polyposis, a three-decade followup, 255

Streptozotocin, see Antibiotics, antitumor

Surgery

adrenalectomy, with radical mastectomy in the treatment of high-risk breast cancer, 478
and preoperative irradiation, for certain cancers, 84
and radiotherapy, in patients with cervical metastasis from squamous cancer of the oropharynx and hypopharynx, efficacy of, 1163
conservative, in sarcoma, soft tissue, clinical and histopathologic parameters and response to treatment, 1478
in acute abdomen in children with leukemia, 826
in adenocarcinoma, cervical, primary, 1514
in astrocytomas, intracranial, and radiotherapy, 1551
in brain tumors, childhood, 950
in bronchogenic carcinoma, correlation of thymus-dependent lymphocyte levels with histology, clinical stage, and clinical course after, 687
in endolaryngeal carcinoma, 1525
in neuroblastoma, abdominal, 905
in pulmonary metastases in children with osteogenic sarcoma, combined with chemotherapy, 618
in rhabdomyosarcoma, childhood, 916
in rhabdomyosarcoma, embryonal, in children, 677
ligation, hepatic artery, and postoperative chemotherapy for hepatic metastases, clinical and pathophysiological results, 1074
lymphadenectomy, pelvic and para-aortic, in cervical carcinoma, 784
mastectomy, modified radical, 710
mastectomy, partial, incidence of new cancers in the homolateral breast after, 475
mastectomy, radical, in mammary carcinoma, radiotherapy after, acute and late reactions in, influence of dose fractionation on, 1583
mastectomy, radical, with adrenalectomy, in the

- treatment of high-risk breast cancer, 478
 - mastectomy, simulated partial, "residual" mammary carcinoma following, 739
 - pleurectomy, in effusions, pleural, malignant, indications for, 734
 - resection, full thickness chest wall, for mammary carcinoma, recurrent, involving the bony chest wall, 567
 - splenectomy, for hematologic depression in lymphocytic lymphoma and leukemia, 521
 - splenectomy, in hypersplenism in advanced breast cancer, 1449
 - ureterosigmoidostomy, colonic neoplasms complicating, 1218
 - Surgical oncology, role in cancer control today, 592
 - Syndrome
 - of fetal gigantism, renal hamartomas, and nephroblastomatosis with Wilms' tumor, 1212
 - Sézary, lymphoid cells, abnormal, in, thymic origin of, 1325
- T, U, V**
- Teratoma, retroperitoneal, Wilms' tumor and renal cell carcinoma in, 1179
 - Testis(es)
 - extramedullary involvement of, in childhood leukemia, 1203
 - tumor of, interstitial cell, feminizing, personal observations and a review of the literature, 1184
 - tumors of, lymphangiography in staging of, accuracy of, 1603
 - Therapy
 - adjuvant, of cancer, via the cellular immune mechanism or fibrin by induced fibrinolysis and oral anticoagulants, 91
 - combined modality, for intracranial tumors, 111
 - combined modality, of Ewing's sarcoma, 36
 - combined modality, of gynecologic cancer, 76
 - multidisciplinary, in rhabdomyosarcoma, in children, 677
 - multimodal, for childhood cancer, success and failure of, 48
 - Thymus, lymphoid cells, abnormal, originating in, in Sézary syndrome, 1325
 - Thyroid
 - carcinoma of, anaplastic giant-cell, a study of treatment and prognosis, 1293
 - carcinoma of, anaplastic (spindle and giant cell), ultrastructure of, 1280
 - carcinoma of, medullary, 695
 - lymphoma of, malignant, following irradiation, 1296
 - tumor of, anaplastic giant cell, ultrastructure of two cases of, 1273
 - Tissue, malignant human, and normal lymphoid tissue, Fc receptors in, 580
 - Tongue, oral, carcinoma of, and floor of mouth, 15 years' experience with linear accelerator therapy, 1517
 - "Total Therapy," of acute lymphocytic leukemia, 25
 - Transplantation, of tumor, in man, historical note on, 540
 - Trials
 - of cancer drugs, review of the basis for selection of drug treatment of cancer, 98
 - randomized concurrent controlled, of cancer therapy, 64
 - Tumors
 - abdominal, management of, 910
 - ACTH-producing, ectopic, studies on, clinical and biochemical features of 30 cases, 1430
 - blood flow of, morphological and quantitative study of, during growth and immune rejection, 385
 - bone, suspected, role of radiologist in management of child with, 925
 - brain, in childhood, diagnosis and surgical treatment of, 950
 - brain, malignant, combination chemotherapy in, phase II study of, 1398
 - brain, murine, cellular radiosensitivity of, 1545
 - brain primary malignant, in children, chemotherapy in, 965
 - central nervous system, in childhood, radiotherapy in, 957
 - esophageal, melanocytic, 1438
 - glomus jugulare, radiotherapy in, 1316
 - growth of, inhibitory effect of prolonged *Corynebacterium parvum* and cyclophosphamide administration on, 134
 - hepatic, endodermal sinus (yolk sac), primary, first reported case, 1453
 - induction of, following irradiation for malignant neoplasm, risk of, 1641
 - intracranial, combined modality therapy for, 111
 - malignant, of the female genital tract, carcinoembryonic antigen and alpha fetoprotein in, 1377
 - mammary, 7, 12 dimethylbenz(a)anthracene-induced, mechanism of hormone action in, prolactin and progesterone effects on estrogen receptor in vitro, 645
 - mammary, murine, virus of, antigenic similarity of prognostically favorable immunogens of human breast cancer tissue to, 121
 - nervous, peripheral, involving paranasal sinuses, case report and review of the literature, 1254
 - ovarian, coagulative and fibrinolytic properties of ascitic fluid associated with, 1382
 - ovarian, granulosa cell, clinicopathologic study of 92 cases of, with special reference to the factors influencing prognosis, 231
 - pancreatic, endocrine, composed of argyrophil and B cells, 436
 - pulmonary, World Health Organization classification of histologic typing of, applied to biopsy and resected material, assessment of, 399
 - second, risk of, in survivors of childhood cancer, 1230
 - soft tissue, malignant, of probable histiocytic origin (malignant fibrous histiocytomas), general con-

- siderations and electron microscopic and tissue culture studies, 176
- solid, methyl CCNU in, 1148
- testicular, interstitial cell, feminizing, personal observations and a review of the literature, 1184
- testicular, lymphangiography in staging of, accuracy of, 1603
- thyroid, anaplastic giant cell, ultrastructure of two cases of, 1273
- Wilms', advances in treatment of, 901
- Wilms', and renal cell carcinoma in retroperitoneal teratoma, 1179
- Wilms', syndrome of fetal gigantism, renal hamartomas, and nephroblastomatosis with, 1212
- Tumor cells, hypoxic, survival curve of, fractionated dose of 35-MeV fast neutrons and, 1658
- Tumor transplantation, in man, historical note on, 540
- Ureter
- carcinoma of, primary, prognostic study of, 1626
- involvement of, in a case of lymphangiomyomatosis, with chyluria, 490
- Urine, polyamine levels of, in human cancer, 464
- Vagina, carcinoma of, primary, pathologic behavior of, relationship to cervical cancer, 787
- Varicella, in children with neoplastic disease, prophylaxis of, comparative results with zoster immune plasma and gamma globulin, 1027
- Vincristine, see Alkaloids
- Virology, virus, murine mammary tumor, antigenic similarity of prognostically favorable immunogens of human breast cancer tissue to, 121
- Virus, see Virology

W, X, Y

- Wilms' tumor, see Tumor, Wilms'
- World Health Organization classification of the histologic typing of lung tumors applied to biopsy and resected material, assessment of, 399
- Xeroradiography, see Roentgenology
- Yoshi 864 (NSC 102627) 1-propanol, 3, 3'-iminodimethanesulfonate (ester) hydrochloride, a Phase I study, 1145
